

ACOUSTIC  
COMFORT

SUMMER/WINTER  
COMFORT

RECYCLED  
COTTON

## A CHOICE YOU MAKE FOR YOURSELF

### + A 3 IN 1 INSULATION

#### THAT PROTECTS FROM COLD, HEAT AND NOISE

**Pavatextil P** is the ideal insulation to protect against the cold in winter and protect yourself from the heat in summer. Moreover, the structure of cotton fibers achieves good acoustic performance.

### + PERFORMANCE GUARANTEED OVER TIME

**Pavatextil P** regulates humidity naturally, and over time retains its initial thickness and insulating power

NATURAL  
INSULATION

PAVATEXTIL P

## PAVATEXTEL P

Recycled cotton insulation

### APPLICATIONS

Attics

Walls  
& Partitions

**PAVATEXTEL P IS A THERMO-ACOUSTIC INSULATION PANEL MADE OF RECYCLED COTTON, MAINLY JEANS.**

**PAVATEXTEL P** comes from the collection, recycling and recovery of textiles at the "end of life", mainly jeans, which are sorted, frayed and revalued. This innovative recycling solution for cotton textiles destined for incineration, gives a second life to a quality raw material.

**PAVATEXTEL P** offers a healthy, high-performance insulation solution with a positive impact on the environment.

**PAVATEXTEL P** has a soft touch.

## A HEALTHIER INSULATION

Thanks to its recycled cotton fibers and its high quality, **PAVATEXTEL P** offers a high thermal and acoustic performance, as well as offering comfort and durability.

### + COMFORT FOR LIFE

**PAVATEXTEL P** keeps you warm in winter and cool in summer by improving the environment in your living spaces. This is less energy consumed and better quality of life !

### + A HEALTHIER AND MORE COMFORTABLE HOME

**PAVATEXTEL P** guarantees the quality of the air in your home, with an A + classification for VOC emissions (Volatile Organic Compounds)

### + THE SOFTNESS AND QUALITY OF COTTON

Flexible, **PAVATEXTEL P** adapts to shapes, which makes the installation particularly easy. The softness of cotton makes laying it much easier and its lightness allows the installation of greater thicknesses.

Double layered in cross layers is possible

Simple and easy cutting with an insulation knife

## EXAMPLE INSTALLATION

Laying the first layer of insulation

Laying the second layer of insulation

Installation of the vapour barrier

Fixing the vapour barrier with double-sided adhesive, creates a technical vacuum then install the facing plates

Also suitable for useable attics
